

How to Use ADVAIR™ DISKUS®

(fluticasone propionate and salmeterol inhalation powder)

BENEFITS OF ADVAIR DISKUS

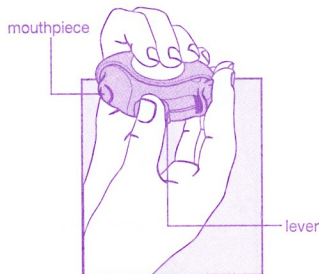

- One inhalation twice a day for patients 12 years and older
- Built-in dose counter lets you keep track of every dose
- Easy to use¹

OPEN...

- While holding ADVAIR DISKUS in one hand, place thumb of other hand on grip and push away until the mouthpiece appears and snaps into position.

CLICK...

- Hold the DISKUS in a level position.
- Slide the lever away from you as far as it will go until it clicks.
- Exhale.*

INHALE...

- Put mouthpiece to lips.
- Breathe in steadily and deeply through the DISKUS.
- Hold breath for about 10 seconds.
- Then **CLOSE** the DISKUS.†

Remember *Never exhale into the DISKUS.

Never attempt to take the DISKUS apart.

Never wash any part of the DISKUS, and keep it in a dry place.

†It is recommended that you rinse your mouth after each dose.

ADVAIR DISKUS does not replace fast-acting inhalers to treat acute symptoms.

CAUTION: ADVAIR DISKUS should NOT be used for transferring patients from systemic corticosteroid therapy. Adrenal insufficiency may occur when patients have been transferred from systemically active corticosteroids to inhaled corticosteroids (see WARNINGS in accompanying complete Prescribing Information).
