

# *Alcohol and Substance Abuse*

## *Facts:*

- Over 5,500 deaths among Illinois residents each year, over 5% of all deaths, are directly or indirectly related to the use of alcohol and other drugs.
- From 9,000 to 10,000 Illinois residents die each year from accidental injuries. About 40% of these deaths are related to the use of alcohol.
- Nearly three out of every ten Americans will be involved in an alcohol-related traffic crash in their lifetime.
- Each year, about 310,000 people suffer injuries in alcohol-related traffic crashes, an average of one person injured approximately every 2 minutes.

## *Symptoms of Addiction to Alcohol or Other Drugs:*

- Continued use of alcohol or other drugs despite the negative consequences.
- Tolerance to alcohol or other drugs by increasingly needing larger amounts to get high.
- Craving or a strong need to use alcohol or other drugs despite the consequences.
- Loss of Control over the amount of alcohol or other drugs used or the time and place of use.
- Physical Dependence or withdrawal symptoms when alcohol or other drugs are stopped.
